

Col'Cacchio Rewards Members will be rewarded with Slices based on their Reward Tier status and their Spend

Tier Status

The Tier Determines the Number of slices you earn for a visit

		Slices Earned per Visit						
Tier Status	Visits Required	Visit 1	Visit 2	Visit 3	Visit 4	Visit 5	Visit 6	Visit 7+
Tier 1 (Lowest)	Apprentice	1	5					
Tier 2	Cook	2 - 3		8	8			
Tier 3	Pizzaiole	4 - 5			10	10		
Tier 4 (Highest)	Maestro	6 +					20	20

Tier Review Period (TRP) = Previous 4 months PLUS the Current month

* A Members Tier Status will be reviewed every month by calculating the member's visits during the TRP

* To retain their current status the member needs to have visited any Col'Cacchio at least the number of times required for each Tier during the TRP

* **Example:** If a Member has previously qualified as a Maestro, they will need to have visited any Col'Cacchio at least 6 times in the TRP

If the Member has only visited 3 times during this period then their Status will be revised to Cook (Tier 2) at the start of the next month

* By including the current month the Member will have 4 - 5 months to achieve their goal

* This process will repeat every month

Spend

The Spend Band Determines the Number of slices you could earn as a % of Spend

Slices Earned for Spend			Example	
Spend Band	Spend	% Purchase earned in Slices	R Spend	Slices **
1	< R120	5%	R 100	5
2	R120 - R179	10%	R 150	15
3	R180 - R239	15%	R 200	30
4	R240 - R749	20%	R 250	50
5	R750 +	25%	R 750	188
	R1000	25%	R 1,000	250

* Members are Rewarded with a percentage of their Rand spend back in slices.

* The percentage Reward is relative to spend based on bands in the table above

* Slices Rewarded for Spend are combined with Slices Rewarded for Visits to make up the total

* Slices can be redeemed in increments of 250 Slices per Reward at a ratio of 5 Slices : R1

** The number of Slices will vary depending on the actual R value purchased
